REPORTS.

Ehe following is extracted from a home paper.

The " Wo-kee" is now in this harbour.

Trial Trip of the " Wo Kee."-For some

weeks past this fine screw steam vessel of

600 tons burden, built at Sunderland by Mr.

James Laing-the builder of the Ville de

has been lying in the harbour incorder to be

fitted up with the engines which were exhi-

litted by Mr. Key at last year's International

Exhibition, and on Wednesday her trial trip

took place. On the pier and along the sands

read, a goodly number of people might be

seen eagerly watching the progress of the

vessel as she left the harbour. She was

under the command of Mr. Croft, first officer.

After getting clear of the harbour, the Wo-kee

ran up to Granton under easy steam, and af-

terwards returned to Kirkcaldy bay. Her

length over all is 185 feet by 26 feet broad

and 15 feet deep. She is fitted up with ho-

rizontal direct acting screw engines—30 horse

nower; of most substantial construction, with

all the modern improvements, and beautifully

finished. The result of the trial gave the ut-

most gratification to all concerned; she hav-

ing run from Granton to Kirkaldy, a dis-

Dancan of London-the gentleman to whom

the vessel has been sold by Mr. Kev-was on

board, and expressed his satisfaction with the

rigged as a three masted schooner, with full

finished and painted before setting sail to
